

We understand the challenges you're facing as the workforce rapidly shifts to remote work.

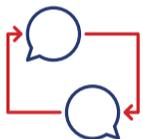

Martello's tools and resources help make the transition easier.

# 43%

of U.S employees work away from their team members at least some of the time.\*

Set up **NOTIFICATIONS** from iQ and Lives Maps to email, Slack or Microsoft Teams and stay updated 24/7.

Set up **SHAREABLE LINKS** to dashboards on iQ and Live Maps to communicate key health and performance data quickly with IT teams.

Take advantage of the free **UCSCORE** tool that will test a user's home network capacity to handle increased traffic from remote work.

Configure **iDNS** to make sure your locally hosted services remain available for VPN users by leveraging incoming link balancing.

Consider implementing **REDUNDANCY** in your network with Martello's High Availability deployments and avoid unexpected outages.

**READY TO ENABLE YOUR REMOTE WORKFORCE?**
